

Plastic Delta Trap (white & red)

Multi-season use

For moth pests
January 2011

A durable, light weight trap used to monitor and mass trap agriculture, horticulture, forestry, and backyard moth pests. Field tested to remain effective through many uses in any weather.

- Durable heavy duty plastic
- Accepts *No-mess Sticky Card™* inserts
- UV resistant colors will not fade over time in intense sunlight.
- Waterproof
- Withstands heavy winds when properly hung

Brand Our Traps With Your Logo

Call now to find out how. Minimum quantity applies.

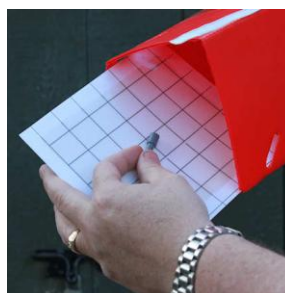

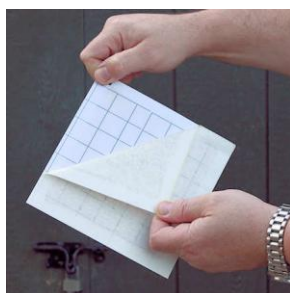

Fig 2: red plastic multi-season, multi-use Delta Trap for moth pests

Hanging Tip

Consult the instructions for each lure for best trap placement - height and whether on the outside or inside of foliage.

To avoid heavy winds blowing the trap off the plant, wrap each end of the hanger one time around the same branch, one end clockwise, the other end counter clockwise, twisting both ends together.
