### 4. FIRST AID MEASURES

#### 4.1 Description of first aid measures

##### General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

##### If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

##### In case of skin contact

Wash off with soap and plenty of water. Get medical attention if irritation develops and persists

##### In case of eye contact

Flush eyes with water. Get medical attention if irritation develops and persists.

##### If swallowed

Rinse mouth with water. Consult a physician if symptoms occur.

#### 4.2 Most important symptoms and effects, both acute and delayed

Direct contact with eyes may cause temporary irritation.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically

#### 4.4. General information

Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

### 5. FIREFIGHTING MEASURES

#### 5.1 Extinguishing media

##### Suitable extinguishing media

Use water spray/fog, alcohol-resistant foam, dry chemical or carbon dioxide.

##### Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

#### 5.2 Special hazards arising from the substance or mixture

During fire, gases hazardous to health may be formed

#### 5.3 Advice for firefighters

Wear self-contained breathing apparatus and full protective clothing for firefighting. Move containers from fire area if you can do so without risk. Use standard firefighting procedures and consider the hazards of other involved materials

#### **5.4 Further information**

No unusual fire or explosion hazards noted.

### **6. ACCIDENTAL RELEASE MEASURES**

#### **6.1 Personal precautions, protective equipment and emergency procedures**

Keep unnecessary personnel away. For personal protection, see section 8.

#### **6.2 Environmental precautions**

Do not let product enter drains, water courses, or spill onto the ground.

#### **6.3 Methods and materials for containment and cleaning up**

**Large spills:** Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

**Small Spills:** Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

#### **6.4 Reference to other sections**

For disposal see section 13.

### **7. HANDLING AND STORAGE**

#### **7.1 Precautions for safe handling**

Observe good industrial hygiene practices

#### **7.2 Conditions for safe storage, including any incompatibilities**

Store in original tightly closed container. Store away from incompatible materials (see section 10 of the SDS). Store tightly under inert gas below 0° C.

### **8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

#### **8.1 Occupational exposure limits**

No exposure limits noted for ingredient(s)

#### **8.2 Exposure controls**

##### **Biological limit values**

No biological exposure limits noted for the ingredient(s)

##### **Appropriate engineering controls**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

##### **Personal protective equipment**

###### **Eye/face protection**

Wear safety glasses with side shields (or goggles)

###### **Skin protection**

###### **Hand protection**

Wear appropriate chemical resistance gloves. Suitable gloves can be recommended by the glove supplier.

###### **Other**

Wear suitable protective clothing

###### **Respiratory protection**

In case of insufficient ventilation, wear suitable respiratory equipment.

###### **Thermal hazards**

Wear appropriate thermal protective clothing, when necessary

###### **Control of environmental exposure**

Do not let product enter drains.

##### **General hygiene considerations**

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
