

# Yellow Jacket Home Use Trap and Lure System

## Instructions

Thank you for your interest in Alpha Scents insect monitoring systems. Below is a simple guide designed to help first-time users of Alpha Scents' home-use products. Follow the instructions below to learn how to assemble, and deploy, your new trap system.

**Trap for:** Yellow Jacket (*Vespula* spp. )

### Parts:

- Yellow Sticky Card, Double Sided x1

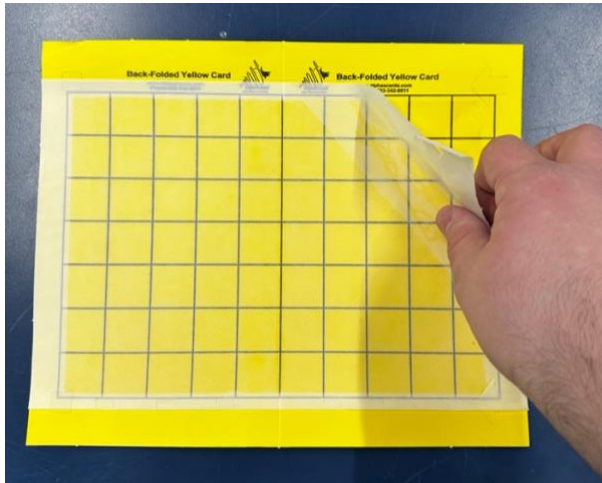

- Trap Hanging Wire x1
- Yellow Jacket Lure (VESPUL) x1

## Instructions:

1. Remove the protective wax paper covering from sticky card.

2. Peel back the protective foil layer from the wasp lure
  - a. **DO NOT** Remove the lure from the packet!

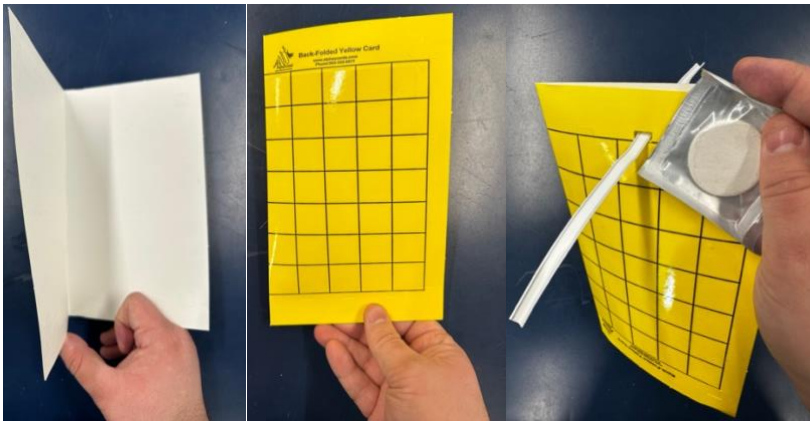

3. Attach yellow jacket lure by threading hanging wire through the slit in the foil

- a. Lure can also be attached by adhering back of lure to the corner of trap or, by using the wire, within the fold of the sticky card.

4. Assemble the trap fully by folding in half and securing using arrow-shaped hooks.

5. Hang trap near affected areas

Thank you for using Alpha Scents traps and lures for your pest control needs!
